**Overview**

KMW U.S.A., INC. is seeking approval of their model AWS-RRH under FCC Rule Part 27L. The RRH (Remote Radio Head) is a base station radio designed to receive, amplify and transmit radio signals for wireless communication.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Short term confidentiality requested for internal photos.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
