Columbia, Maryland 21046

Application Examiner:

KMW U.S.A., Inc. is submitting this application for the Class II Permissive Change authorization of model 800MHz iDEN RRH, FCC ID: ZUQ849144415. The device was originally certified for CDMA and EVDO modulations. Under this filing, authorization is sought for LTE operation.

No hardware changes have been made; no new frequency determining circuitry has been added. The maximum output power remains the same. The change to support LTE has been made through software only.

The software used to enable LTE operation is available only at the factory. Third parties have no means to change the operating parameters of the device.

The receiver portion of this radio transceiver has been verified to FCC 15B.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 90.691. RF exposure compliance is addressed at the time of licensing, as required by the responsible FCC Bureau(s), including antenna co-location requirements of 47 CFR 1.307(b)(3).

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Jinhee Lee  
Engineer  
Research & Development  
KMW U.S.A., INC.

A handwritten signature in black ink, appearing to read 'Jinhee Lee', is written over the printed name and title.
